SERGE P aka Serge Przybyl was born in August 1991 and has discovered his passion to the true electronic music in 2008. After relocation to Düsseldorf he became a resident in one of the most famous german clubs for electronic music, "BOOTSHAUS", in 2011. With a lot of new music influence by meeting and playing with the World DJ Elite in the electronic genre he demonstrated a natural ability for creating incredible DJ-Sets and his skill as allrounder. What makes Serge`s sets special is his capacity for diversity, blending together a plethora of different styles and genres into main-room sounds. He has released remixes on labels all over europe and his first Single after signing to Police Records from France, founded by Vitalic's A&R, in march 2013. He signed to Brooklyn Fire Records from Tommie Sunshine with his Single "Thausands " and to Bronson Records from Mustard Pimp with the following Single " Speed ". After that Serge has remixed some Artists from different labels e.g GSUS, The Sneekers, Breach, Modek, Don Rimini, Aerotronic, FATHER, Un:Code, YOAV and Mark Zowie. Beside these projects Serge has published another EP "Back in the Day" on Police Records which includes 6 tracks from 124 - 144 BPM. Every track is different and tells a story with house-, techno- and acid- elements itself. After the Remix for Vega22 from Mako Records the label of Proxy himself, he got the chance to create an EP, which will be remixed by other producers. Serge has gone far from EDM and usual sounds, he tries to combine the different elements from techno, house and acid he likes, that will be hearable on the EP „Acid Breath" and the upcoming projects.
